Number of Training Jumps Planned: \_\_\_\_\_

1. Training Jumps are defined as discipline-specific training jumps. For team sports, the jump must be with at least 50% of the team. However, the entire team need not apply for HPAF; for instance, if the rest of your team is from another province, you may still apply. For individual sports, the jumps must be a training jump in the discipline applied for. Coach and Instructor jumps do not qualify. For example, a Style jump is not a training jump for Paraski; a 2-way coach jump is not a training jump for 4-way CF; a recreational 8-way formation load is not a training jump for 4-way FS.
